

accent on kitchens

French Country

This kitchen remodel was done in conjunction with a major addition to suit the needs of this family of six. As this Amherst house dates back to 1775, the homeowners wanted to maintain a sense of antiquity in the renovation.

A Southern Chestnut wood floor and creamy French Vanilla cabinets give the kitchen a warm glow, accented by the green Viking stove. Crown molding, spindle fluting, and antique glass doors are elegant finishing touches. Ample storage, comfortable seating, and top-flight appliances—including a 48" Viking refrigerator, Belle Foret basin sink, and wine cabinet—add a practical element.
